

# Glimt fra Festival of Wonder 2005

Dariusz Gajda presents

## Stumble Onto

How, incidentally, fire was discovered; what use is a broken glass to damaged eyes, and which dreams became a hot-air balloon?

Magical and imaginative plots of discoveries are revealed in the "Laboratory of Human Curiosity". Stories of inventions that incidentally happened and remained, and of the people who dreamt them.

An original show, full of imagination and absent of words, combining puppets, shadows, objects and actors.

For the whole family, from age 6.

## FESTIVAL of WONDER

10.-13. NOVEMBER 2005

Arrangør: Silkeborg Bibliotek, Skolernes Teaterformidling, Daginstitutionerne, Teater i Tiden og mange frivillige
